### MERCHANTS CALLED IN DAMAGE SUITS AGAINST STRIKES

Meriden, Jan. 4.—More subpoenas in the suit of the International Silver company against former employees and officers of labor unions who have been participants in the strike against the company, were served today by court officers, the respondents being merchants and some former employees of the International Silver company. Those served are ordered to be present at a hearing to be held in New Haven tomorrow when the matter of a temporary injunction against labor leaders and strikers will come up. Although the time in which subpoenas could be served expired Saturday night by the wording of the original papers an extension of time has been granted. This will expire tonight. Several officers of international unions also mentioned in the suit were here Sunday but no effort apparently was made to serve them with papers. These officers have probably left the city again.

## The FIRST Records of Marimba Music

Marimba music is a new sensation to North American ears. Favorite compositions played on the marimba assume a new individuality—the effects obtained are fairly startling.

This little-known Central American instrument was first presented in the United States by the Hurtado Brothers of Guatemala at the Panama-Pacific Exposition, where it speedily became one of the features of the Fair. The Columbia Company is first to present its novel music in record form.

The instrument, itself, as pictured here, is over twelve feet long, and has wooden "keys" arranged as in the xylophone. It is played in a manner similar to that of the better-known instrument, but unlike it, each key of the marimba is equipped with a novel "resonator"—a triangular wooden tube that reverberates with tremendous sonority as the key is struck.

Marimba effects are so far outside the musical experience of all but globe-trotters, that in Columbia Double-Disc Records No. A1832 and A1845, old favorites were purposely selected to display the difference of rendering—the first offering Suppe's "Poet and Peasant" and "Figue Dame," the second, Strauss' "Blue Danube Waltz" and "The Three Jewels" two-step of Moreno.

Listen to these records and note the resonant, booming bass harmonies; the sparkling, vivid "trilling" as the scale is sharply ascended; the new impressiveness or gaiety each passage gains in this unique interpretation—and you will feel the thrill of marimba music at its best. Columbia Records A1832 and A1845—75c, are genuine musical novelties of extraordinary interest.
